Education

Degree	Institute	CGPA/Percentage	Year
B.Tech. (CSE)	Bennett University	8.12	2022-2026
Senior Secondary	GN National Public School	91.6%	2021
Secondary	GN National Public School	90%	2019

Projects

- Stoxie | GitHub | Demo** *[Next.js, MongoDB, Tailwind CSS, Finnhub API, Inngest, Nodemailer]*
Stock Tracking Web Application Sep 2025 – Oct 2025
 - Engineered a stock tracker covering **50+ stocks** and generating **30–50 automated briefings daily**.
 - Handled **500+ daily API calls** with real-time updates delivered in **under 1 second**.
 - Automated all price alerts via Inngest and Nodemailer, eliminating manual notifications.
- AgentMeet | GitHub | Demo** *[Next.js, TypeScript, Tailwind CSS, Stream, OpenAI, Inngest]*
AI-Powered Meeting Assistant Platform Aug 2025 – Sep 2025
 - Developed an AI-meeting platform supporting **10+ custom agents** and **20–40 conversation events per minute**.
 - Delivered live video and audio with **<150 ms latency** and **95%+ accurate transcripts**.
 - Implemented analytics with **5 engagement metrics per session** and subscription tiers for users.
- Eco Drop | GitHub** *[React.js, Node.js, Next.js, Tailwind, MongoDB]*
Eco-Friendly Marketplace Jan 2024 – Apr 2024
 - Built a recycling marketplace with **200+ sellers** across **10+ material categories**.
 - Designed a search system using **5+ multi-criteria filters**, improving match accuracy by **80%**.
 - Supported **100+ transactions each month** through improved listings and onboarding flows.

Research

- Dynamic Workflow Scheduling Using CNN-LSTM and Deep Reinforcement Learning**
IEEE Conference Template
 - Constructed a DRL-based scheduler with a DAG-aware CNN-LSTM encoder and attention-GRU decoder, tested across **5 CyberShake workflows (30–1000 tasks)**.
 - Trained over **50 episodes**, achieving a consistent **15–22% makespan reduction** vs. topological baselines and maintaining an average makespan of **84.72 ± 8.11**.
 - Achieved **0.58 ± 0.21 Q-value confidence**, **1.48 ± 0.39s** training time/episode, and demonstrated stable reward trends across all workflow scales.

Relevant Skills

- Programming Languages:** JavaScript, TypeScript, HTML/CSS, Object-Oriented Programming (OOP)
- Frameworks & Libraries:** React.js, Next.js, Node.js, Tailwind CSS, shaden/ui
- Databases:** MongoDB, MySQL
- Tools & Platforms:** Excel, Google Looker Studio, Git, GitHub, Inngest, Stream, Vercel, Google Colab
- Professional Skills:** Technical Communication, Cross-Functional Collaboration, Structured Problem Analysis

Leadership & Achievements

- Batch Representative** *Led academic coordination for a cohort of 40+ students* 2022–2024
- Team Lead** *Directed 5+ project teams across coursework and hackathons* 2022–2024
- Merit Scholarship Recipient** *Earned and retained a 35% scholarship for academic performance* 2022–2026
- Top 15 Finalist** *Smart India Hackathon – BU Edition (SIH-BU)* 2023

Certifications

- AWS Cloud Practitioner*
- AWS Cloud Technical Essentials*
- Introduction to Artificial Intelligence (AI)*
- Programming in C++*
